1. AP credit for Chem 20 or 21 is also acceptable.
2. See also the [Physics requirements](#).
3. ECE Concentration Electives: Four courses selected from the set approved for the ECE program. Courses must be selected from at least two areas, and at least two courses must be from the same area. See [Appendix D: Approved ECE Concentration Elective Areas and Courses](#) for a complete course listing.
4. ECE Elective: Any ECE course at the 300 level or above.
5. Statistics Elective selected from the list of approved Statistics electives, found in [Appendix E](#).
6. Approved ECE Design Elective: Approved Electrical & Computer Engineering Design Elective taken after meeting all Math, Science, and ECE Core curriculum requirements. In addition, each approved design elective has one or more pre-requisite upper-level ECE courses. The elected design course may not simultaneously also count as an ECE Concentration Elective or ECE Elective. See [Appendix E](#) for a list of all currently approved Design courses.
7. The Natural Science/Engineering Elective may be satisfied by taking an upper-level (300-level or above) Natural Science/Engineering course, or by taking a course selected from a list of approved 200-level Natural Science/Engineering courses (check with DUS for approved list), found in [Appendix E](#).
