- Students are required to have Chem 21 or take Chem 101DL or Chem 110DL.
- See also the [Physics requirements](#).
- ECE Concentration Electives: Two courses selected from the set approved for the ECE program. Both courses must be selected from the same area. See [Appendix D: Approved ECE Concentration Elective Areas and Courses](#) for a complete course listing.
- ECE Elective: Any ECE course at the 300 level or above.
- If BME 301L is taken, the Advanced Elective must be in the Electrobiolology (EL) Area of Focus.
If BME 303 is taken, the Advanced Elective must be in the Imaging and Measurements (IM) Area of Focus.
See the BME Undergraduate Program Handbook for details.
- Statistics Elective selected from the list of approved Statistics electives, found in [Appendix E](#).
- Students who place into CompSci 201 are not required to take EGR 103L.
